POS RESELLERS

*“ Sterling is our go-to processor now. They’ve ramped up their service to a new level. I get great sales support and my representative pays attention to details, like making sure my merchants are boarded quickly. I’ve also done several successful EMV installations with Sterling. Sterling is doing everything right and I recommend them.”*

*“ I find that Sterling stays on top of things. Merchant applications are approved quickly and I’m seeing my residuals grow.*

*“ What I like best about partnering with Sterling is being able to connect easily, even on weekends. As an example, I was setting up an EMV device and had a network issue that wasn’t Sterling’s fault, yet they reached out to me and stayed on the phone until the issue was resolved. I always feel people at Sterling care about my business.”*

*“ I’ve been in this business for 20 years and have partnered with quite a few processors. Sterling is the only one that has gone above and beyond just taking leads and paying a residual. Sterling partners with us in lead development and business marketing efforts. We appreciate their willingness to listen to us and collaborate on creative ways to market our business.”*

**- David Riley Jr. / National Business Systems / Kent, WA**

*“ Sterling is an active partner. They bring us into deals, and they support us with marketing resources such as microsites and training sessions on merchant processing. Most importantly, they operate transparently and with a high degree of integrity.”*

**- Edwin Leonardo / All Florida POS / Coral Springs, FL**

*“ Sterling acts like a partner, not a vendor. Their residual package is fair, and my Sterling account team is diligent and hardworking.”*

**- Michael Greene / Magic Touch POS / Twinsburg, OH**

*“ A couple of years ago, Sterling reached out to me about partnering with them. Every time someone from Sterling came through town, they’d stop by to try to get me to come onboard. Eventually I gave in and decided to give Sterling a shot. That turned out to be one of the best decisions I ever made. Sterling’s commitment to personal services is what I’m enjoying the best. I don’t just have a sales person, I have a whole team, so there’s no need to worry if someone isn’t there.*

*“ My first account with Sterling was really small. I probably made \$25. But Sterling took such good care of me even though it wasn’t a big account. That’s why I decided to move most of my customers over to Sterling.”*
